October 25, 2020

Dear North Syracuse Central School District Staff:

We have been notified by the Onondaga County Department of Health that a student at C-NS High School has tested positive for COVID-19. As the County is currently in the process of performing contact tracing, C-NS High School will switch to remote learning on Monday, October 26. All other schools in the District will operate as normal following the set hybrid schedule. C-NS High School staff will have access to the school. Building administration and office staff will attend.

While confidentiality and privacy constraints prohibit us from providing personal information about the student impacted, we can let you know that the student was last in attendance on Tuesday, October 20 and is currently quarantined by the County Department of Health.

We have identified students and staff thought to have been in close contact with the student and have provided that information to the County Health Department. All individuals suspected to have been in close contact will be quarantined outside of the building. The County Department of Health is in the process of contacting any additional individuals.

Affected areas of the school have been sanitized and the District is taking additional precautions to protect the health and safety of its students and employees. We will continue to closely monitor this situation and communicate updates, if necessary.

Sincerely,

A handwritten signature in black ink that reads "Daniel D. Bowles". The signature is written in a cursive, flowing style.

Daniel D. Bowles
Superintendent of Schools
